

# Part 19

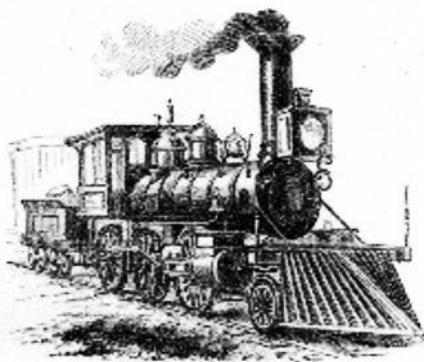

## Cuban steam locomotive lists

### All locos listed by builder

©Martin Coombs

v1.04 October 2025

This file can be found, along with the five Chilean parts in the series and single files for a number of other smaller South American countries, at  
<http://www.railwaysofthesouth.co.uk/05x03chileansteamlocos.html>

These lists, though benefitting from modern technology in both research and presentation, build upon those produced by many other investigators, from Wilfred Beckerlegge and Paul Dewhurst in the 1920s to John Kirchner and Allen Copeland eighty or ninety years later. As such, their content will, I hope, be helpful for researchers and authors in the future.

Feel free to use this material, though an acknowledgement would be appreciated.

## General introduction

These lists grew from the publication of the book *Railways at the End of the World* (The Araucaria Press, Casterton, Cumbria, UK ISBN 978-0-9928622-0-6), back in 2014. During the research undertaken when gathering information for that volume, it had sometimes been frustrating when locomotives in southern Chile could not be easily identified. Once the book had been published there was more time available, and it gradually became obvious that a list of the engines of the Chilean state railways (*EFE*) would have to cover the whole country to be of any use, and thus it expanded all the way up to Arica. Then, during the Covid pandemic, the first moves were made to extend these lists to some of the other smaller South American countries.

The foundations were built upon earlier lists created by others such as Allen Copeland, John Kirchner, and Reimar Holzinger. Additional information has been added bit by bit to their work. Photographs too have been inserted, though these have been kept small, partly to reduce the file sizes and partly to minimise the risk that copyright owners will object. The main purpose of the images is in any case to enable locos spotted in other photographs elsewhere to be identified. When high-resolution versions are likely to be available from museums and archives, this has been flagged up, to encourage interested readers to purchase what they need from those who care for historic drawings or photographs.

As news of this work has spread, assistance has come from other researchers, including in particular Chris West, Claus Gaertner and Martin Murray. Grateful thanks is due to their selfless willingness to share information and images. Whilst many of the written sources consulted have been in Spanish, these lists are currently solely available in English. This partly results from my own lack of linguistic confidence, but is also a reflection of the fact that keeping a fast-changing document synchronised in two different tongues is very time-consuming. Nevertheless, quotes from historic documents have usually been left in Spanish and it is to be hoped that in the future a Spanish version of the whole work can be created.

Close examination of these pages is likely to remain strictly a minority interest, whilst even fewer are likely to print out all 5200+ pages! Thus the files have been designed to be read on screen, with hyper-links from the contents page to aid in finding each section. The density of information is likely to discourage browsing on a mobile phone, but hopefully the layout is suitable for display on tablets as well as larger computers.

It will be obvious that this is a work still in progress, with updates being uploaded to the web roughly on a quarterly basis at present. Comments, additional items of information or images, and suggestions to improve the layout, would all be very much appreciated, and the author can be contacted at [martincoombs11@gmail.com](mailto:martincoombs11@gmail.com)

## This Cuban list

T

## Introducción general

Estas listas tienen su origen en la publicación del libro *Railways at the End of the World* (The Araucaria Press, 1 Fel-lview, Casterton, Cumbria, LA6 2SA, Reino Unido. ISBN 978-0-9928622-0-6), en 2014. Durante la investigación realizada para recopilar información para dicho volumen, a veces resultaba frustrante que las locomotoras del sur de Chile no se pudieran identificar fácilmente.

Tras la publicación del libro, se dispuso de más tiempo, y poco a poco se hizo evidente que una lista de las locomotoras de los Ferrocarriles Estatales de Chile (EFE) tendría que abarcar todo el país para ser útil, por lo que se amplió hasta Arica. Posteriormente, durante la pandemia de COVID-19, se dieron los primeros pasos para extender estas listas a algunos de los otros países sudamericanos más pequeños.

Las bases se construyeron sobre listas anteriores creadas por otros autores, como Allen Copeland, John Kirchner y Reimar Holzinger. Poco a poco, se ha ido añadiendo información adicional a su trabajo. También se han insertado fotografías, aunque de tamaño reducido, en parte para reducir el tamaño de los archivos y en parte para minimizar el riesgo de objeción de los titulares de los derechos de autor. El objetivo principal de las imágenes es, en cualquier caso, permitir la identificación de las locomotoras que aparecen en otras fotografías en otros lugares. Se ha informado sobre la disponibilidad de versiones en alta resolución en museos y archivos para animar a los lectores interesados a adquirir lo que necesiten de quienes se interesan por los dibujos o fotografías históricas.

A medida que se ha difundido la noticia de este trabajo, otros investigadores, como Chris West, Claus Gaertner y Martin Murray, han colaborado. Les agradezco enormemente su desinteresada disposición para compartir información e imágenes. Si bien muchas de las fuentes consultadas están en español, estas listas actualmente solo están disponibles en inglés. Esto se debe en parte a mi falta de confianza en el idioma, pero también a que mantener sincronizado un documento en constante evolución en dos idiomas diferentes requiere mucho tiempo. No obstante, las citas de documentos históricos se han mantenido generalmente en español y es de esperar que en el futuro se pueda crear una versión en español de toda la obra. Es probable que el análisis minucioso de estas páginas siga siendo un interés minoritario, y es probable que aún menos impriman las más de 5200 páginas. Por lo tanto, los archivos se han diseñado para su lectura en pantalla, con hipervínculos desde la página de contenido para facilitar la búsqueda de cada sección. La densidad de información probablemente desaconseje la navegación en un teléfono móvil, pero esperamos que el diseño sea adecuado para su visualización tanto en tabletas como en ordenadores de mayor tamaño.

Es evidente que este es un trabajo en curso, con actualizaciones que se suben a la web aproximadamente trimestralmente. Se agradecerán comentarios, información o imágenes adicionales, y sugerencias para mejorar el diseño. Se puede contactar con el autor en [martincoombs11@gmail.com](mailto:martincoombs11@gmail.com)

## **Notes and sources**

### **Dimensions**

Imperial unit driving wheel and cylinder dimensions, ie. in inches, have been used if it seems likely that they were originally created in that system.

---

## The railways of Cuba

### The western or 'Unidos' group

- The CH de la Habana
- El FC de Cárdenas y Jucaro
- El FC de Matanzas á Sabanilla
- El FC de Marianao
- - - El FC del Oeste / Western Rly. of Havana
- El FC Bahía de la Habana y Matanzas
- - - The Cuban Central Railways
- - - - The Havana Central Railway

### The eastern or 'Consolidados' group

- The Cuba Railroad
- - - The Cuba Northern Railways
- - - - The Camaguey and Nuevitas Railway
- Espirituano Railroad
- Guantanamo & Western RR Co.

### Other standard gauge public railways, remaining independent

- The Hershey Cuban Railroad
- El FC de Tunas y Sancti Spíritus
- The Guantanamo Railway
- Tricornia Military RR
- Trinidad RR
- El FC Urbano y Omnibus* in Havana
- El FC y Almacenes de Deposito de Santiago de Cuba*
- The Cauto (military) Railway*
- El Ferro-Carril La Prueba*
- The Nipe Bay Company*

### Narrow gauge public railways

- The Coliseo to Guamacaro branch of the FC de la Bahía de la Habana
- El FC de San Cayetano á Viñales aka el FC Norte de Viñales
- El FC Precioso to Siguapa port
- The Sanchez branch of the FC de Matanzas
- El Linea Juragua
- The Central Portugalete railway, later the FC Caracas
- El FC del Oeste del Sagua la Grande
- El FC Mallorquin and el FC Carahatas
- El FC Resulta
- El FC Nazabal
- El FC de Zaza later el FC Placetas á Caibarien
- El FC de Caibarien á Morón
- El FC Yaguajay
- The Chaparra Railroad Co.
- El FC de Gibara y Holguin
- The Banes Railroad
- El FC Ibanez

## **Other parts of this work**

This is one of a number of PDF files covering the steam locomotives of Chile and the smaller South/Latin American countries across a wide variety of gauges. The other files can be accessed by clicking on the red hyperlinks listed below. It is hoped that further files will be added in due course.

- Part 1      Chilean broad gauge locos**
  - Part 2      Chilean intermediate gauge locos**
  - Part 3      Chilean metre gauge locos**
  - Part 4      Chilean sub-metric gauge locos**
  - Part 5      Chilean locos listed by builders**
  - Part 6      Ecuadorian locomotives**
  - Part 7      Bolivian locomotives**
  - Part 8      Paraguayan locomotives**
  - Part 9      Uruguayan locomotives**
  - Part 10     Venezuelan locomotives**
  - Part 11     Guianan locomotives**
  - Part 12     Colombian locomotives**
  - Part 13     Peruvian standard gauge locomotives**
  - Part 14     Peruvian narrow gauge locomotives**
  - Part 15     Panamanian locomotives**
  - Part 16     Central American countries locomotives**
  - Part 17     Cuban public railway locomotives**
  - Part 18     Cuban industrial railway locomotives**
  - Part 19     Cuban locomotives listed by builders**
  - Part 20     West Indian island locomotives (other than Cuba)**
-

## Cuban loco list by builders

Text in blue relates to locomotives whose operating location has not yet been identified, the information relating to such engines is stored here until it can be allocated to a particular owning railway or industrial plant.
